TEAM ID	PNT2022TMID33290
PROJECT NAME	Fertilizers Recommendation System for Disease Prediction

PROJECT OBJECTIVES:

By the end of this project we will understand:

- Pre-process the images.

- Applying the CNN algorithm to the dataset.

- How deep neural networks detect the disease.

- We will be able to know how to find the accuracy of the model.

- We will be able to build web applications using the Flask framework.
